

CYBERSECURITY FOR DISTRIBUTORS

corsica
technologies

Leverage Corsica Technologies' experts for cohesive protection, strategy, and support. Corsica Secure gives you enterprise-grade cybersecurity and IT at a fraction of the cost.

- 30+ years in business
- 300+ certifications
- 1,000+ clients

DON'T LEAVE CYBERSECURITY & IT TO CHANCE

Managing IT today can feel like an uphill battle, especially if you work in distribution or manufacturing. From staying current on regulations to keeping track of security patches, it's a lot for one team to manage. That's where Corsica comes in with our cybersecurity and managed IT services.

SECURE, COMPLIANT MANAGED IT & CYBERSECURITY SOLUTIONS

Our managed IT and cybersecurity services go hand-in-hand with the unique needs of distributors and manufacturers. And when you partner with Corsica, you get more than a managed IT vendor—you get a strategic technology partner to help:

- Reduce manufacturing downtime
- Increase productivity
- Automate cyber monitoring
- Ensure compliance and certifications
- Provide 24/7/365 support backed by our cybersecurity service guarantee.

CORSICA TECHNOLOGIES OFFERS:

MANAGED CYBERSECURITY

Cyber threats are constantly evolving. That's why our services include 24/7/365 monitoring, threat detection and elimination, strategy, and more.

MANAGED IT SERVICES

Get the IT infrastructure support you need. From on-premises to the cloud, we keep your systems running with proactive maintenance.

DIGITAL TRANSFORMATION

Legacy processes and systems often create data errors and greater costs. Transform your business with the latest technology for improved efficiency.

ONE-TIME PROJECTS

Security assessments, awareness training, or cloud migrations...we fill in gaps where your team needs additional expertise or more resources.

AI CONSULTING

Unsure where to start with AI? Engage our experts to understand the latest technology and how it can streamline your existing operations.
